PROFESSIONAL SUMMARY

MCA postgraduate with strong foundations in software development and hands-on experience in Android and web application development. Proficient in Kotlin, Python, ReactJS, Firebase, and SQL, with a solid understanding of database management and software development lifecycle. Experienced in developing scalable applications through academic projects and internships. A quick learner with strong problem-solving, teamwork, and communication skills, eager to contribute to efficient and reliable software solutions in a dynamic IT environment.

EDUCATION

Master of Computer Applications Kristu Jayanti (Deemed to be University), Bengaluru - 79%	August 2024 – May 2026
Bachelor of Computer Applications Kristu Jayanti College (Autonomous), Bengaluru - 85%	August 2021 – May 2024
Class XII – Commerce with Informatics Practices St. Peter's Senior Secondary School, Kadayiruppu, Kerala - 95%	June 2020 – March 2021
Class X St. Peter's Senior Secondary School, Kadayiruppu, Kerala - 94%	June 2018 – March 2019

INTERNSHIP

Beepeaks, Bengaluru (Remote) April 2026 – Present

Website/Application Developer Intern (Team Lead)

- Developing a recruitment web application to manage candidate workflows and tracking.
- Implementing role-based access, candidate assignment, and call status management.
- Integrating Google Sheets for real-time data synchronization and updates.
- Building reminder and reporting features to improve recruitment efficiency.

Rejola IT Services, Chennai

June 2025 – July 2025

React Intern

- Developed responsive and mobile-friendly UI components for E-commerce and Educational web applications using ReactJS.
- Implemented reusable components, React Hooks, routing, and state management to improve code maintainability and scalability.
- Designed structured layouts using CSS, ensuring cross-browser compatibility and optimized user experience.
- Collaborated in a remote development environment, following organized workflow.

EduPhoenix Solutions, Bengaluru

June 2023 – July 2023

Web Development Intern

- Gained practical experience in web development and website architecture during structured training.
- Developed and enhanced features for a car trading web application using HTML, CSS, and JavaScript.
- Implemented responsive UI components and ensured cross-browser compatibility.
- Collaborated within a team environment, improving debugging efficiency and problem-solving capabilities.

PROJECTS

STRIVO – Campus Communication & Management System[©]

Android & Web | Kotlin | Firebase | ReactJS

- Designed and developed a full-stack Android and web-based platform for department communication and administration.
- Implemented real-time database synchronization, secure authentication, and role-based access control using Firebase.
- Built scalable modules for HOD, faculty, and students to streamline academic communication and workflow management.

FleetMinder – Vehicle Service Tracker App

Android | Kotlin | Firebase

- Developed an Android application to track vehicle maintenance history and service schedules.
- Integrated Firebase for backend data storage and user authentication.
- Designed a user-friendly interface for managing vehicle records and service reminders.

Attendance Monitoring System using Face Recognition

Python | OpenCV | Face Recognition | Excel

- Developed an automated attendance monitoring system using face recognition technology.
- Implemented face detection and recognition using Python and OpenCV libraries.
- Automated attendance recording by capturing recognized faces and storing records in structured Excel sheets.
- Reduced manual attendance effort and improved accuracy through real-time facial verification.

Leave Management System

Visual Basic | MS Access

- Designed and developed a role-based desktop application for managing leave requests and approvals.
- Implemented database connectivity using MS Access for efficient record management.
- Improved leave processing efficiency through structured workflow automation.

TECHNICAL SKILLS

- Languages: Java, Kotlin, Python, C, JavaScript
- Web Technologies: HTML, CSS, React.js, Node.js
- Databases: MySQL, Firebase (Realtime Database & Authentication), MongoDB, MS Access
- Tools: Android Studio, Visual Studio, VS Code, Figma, Power BI, N8N
- Core Concepts: Data Structures, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Database Management Systems (DBMS)

CERTIFICATIONS

- NASSCOM FutureSkills Prime: Data Science and Machine Learning – 2026
- Oracle Certified: AI Foundations Associate – 2025
- AWS Academy: Cloud Developing – 2025
- Google: Cybersecurity Professional Certificate – 2024
- Blockchain Foundation Certification – 2024
- NPTEL: Cloud Computing - 2023

ACHIEVEMENTS

- Presented a research paper on “Quantum Computing in AV, Security, and Medicine” at the National Student Research Symposium (SRS) 2025, Kristu Jayanti (Deemed to be University), demonstrating applied research in quantum computing, computational intelligence, security systems, and real-world technology applications.
- Active Member, Institute of Electrical and Electronics Engineers (IEEE).
- Participated in social outreach programs teaching emerging technologies in government schools.
